

Watches Online monitoring is customizable also from CM Portal, although in a limited range. **We recommend to set more simple conditions through CM portal**, to which you know the whole setup, since you don't have an immediate test of the set data and some function are not supported for remote adjustment at all, for example HW monitoring of computers (CPU temperature, blower rotations), Watches based on templates (HP, DELL.. HW monitoring).

Note : For OS Linux/FreeBSD and Mac OS X is the setup of new Watches through CM Portal the only available option.

The **ideal way** for Watches is currently **edition of existing Watches**, for disabling, enabling of Watches, edits of conditions, actions.. So you don't need to access every PC for trifles.

Next we recommend to use CM Portal to **copy existing Watches to other computers**.

Setup of Watches through CM portal can be found in the section [How CM works >> Monitoring and diagnostics](#) [1] in the Introduction to setup of Online monitoring and at individual parameters/conditions.

The screenshot shows the 'Watches - nastavenia' page in the Customer Monitor portal. The left sidebar contains a navigation menu with the following items: 'Hlavné menu', 'Zákazníci', 'Počítače', 'Audit SW a evidencia HW', 'Používatelia', 'Môj profil', 'Zákaznícke konto', 'Používateľská história', 'Admin. nástroje', 'Inštalácie a skrípty', 'Udržovanie PC', 'C-Monitor klient', 'Nastavenia C-Monitor na PC', 'Rozšírenie a stav účtu' (highlighted with a red arrow), 'Aktualizácia C-Monitor M', 'Verzia', 'Licencie', 'Stiahnuté súbory z počítačov', 'Komunikácia', 'Odoslané požiadavky z CM', 'Prijaté správy do CM', 'Vzdialený prístup', 'Odoslané SMS a Emaily', and 'Externé monitorovanie'. The main content area is titled 'Watches - nastavenia' and includes a search bar and a table of watches. The table has columns: 'X', 'CM-ID', 'Meno v sieti', 'Umiestnenie', 'Používateľ', 'Spoločnosť', 'Watches', 'Aktuálne na PC', 'Naposl. odoslané watches z PC do CM', and 'Posl. online spojenie s CM'. The table lists several watches, including 'C11V04', 'C11V02', 'C11V01', 'C11V05', 'C11V09', 'C11V02', and 'C11V03'. A red arrow points to the 'Nastavenia C-Monitor na PC' link in the sidebar.
