

Offers a detailed list of transfers through your selected ports. Using the filter on right side of the window, choose the required parameters such as network, which you're monitoring, time interval, ports, type of graph, and select show in table or graph.

List of ports to data transfers is located on several places, one of them is the section breakdown of [data transfers according to IP addresses](#) [1].

The screenshot shows the 'Detaily prenosu PC' window in the Customer Monitor application. The window displays a table of data transfers categorized by IP address. The table has columns for 'IP adresa', 'Total', 'Download', 'Upload', and 'Port #: Download/Upload'. The 'Port #:' column is highlighted with a red box. The table shows data for various IP addresses, including 85.184.88.143, 213.81.195.52, and 92.240.251.49. The 'Port #:' column shows values like 80, 8080, and 2525. A red box highlights the 'Možnosť exportu do excelu' button in the top right corner. Another red box highlights the date range selector 'Od 04.09.2012 12:51:03 do 06.09.2012 13:21:03'. The 'Detaily prenosu PC' tab is also highlighted with a red box.
